Italian GLASS

In the northern region of Italy, truly extraordinary ornaments are brought to life by Italian Artisans who use centuries-old blowing techniques to create each individual style – without the aid of a mold. These unique designs are painted by hand and trimmed with colorful beads, elaborate feathers and fabrics of the finest details. No two styles are ever completely alike!

Romanian GLASS

In the northwestern region of Romania, in the woods of Transylvania, fanciful CHRISTOPHER RADKO ornaments created in the Romanian tradition, come to life!

Each individual design is free blown by Romanian glass blowers, without the aid of a mother-mold to guide them. Each piece is then meticulously hand painted, glittered and adorned with feathers, fabrics, ribbons and other festive trim accessories.

Master Craftsman

CHRISTOPHER RADKO Designers in collaboration with the skilled and accomplished German Masters create the magnificent and unique *Master Craftsman Collection*.

German carvers and mold makers provide a sense of design that today may be considered the greatest of all Christmas legacies passed down in Germany, and shared throughout the world.

Although mold making can be considered quite expensive in Germany today, a small number of new creations do manage to trickle through to the delight of the collecting world.

Only a select few craftsmen in all of Germany possess the skills required to create these free-blown molded masterpieces that each require hours to complete. Exquisite details and masterful craftsmanship combine to create an exclusive collection of truly vintage holiday designs.

German Candy Containers

The traditional papier-mache candy containers in this year's 2009 collection were designed exclusively for CHRISTOPHER RADKO®. While each style has received unique new paint details, clothing patterns and glitter embellishments, the styles retain and reflect all of the old-world traditional details inherent in authentic German candy containers made by The Schaller Family. The process of making decorative papier-mache composition figures takes a full seven days per style. Once created, each container is dated, hand numbered, signed and limited in production to a maximum of 600 pieces per style.

The CHRISTOPHER RADKO Company is proud to continue working with The Schaller Family to create magnificent new styles each year.

Christopher Radko Presents

SHINY-BRITE™

Welcome to Shiny-Brite®

Where the warm remembrances of the past will
inspire the memories of the future!

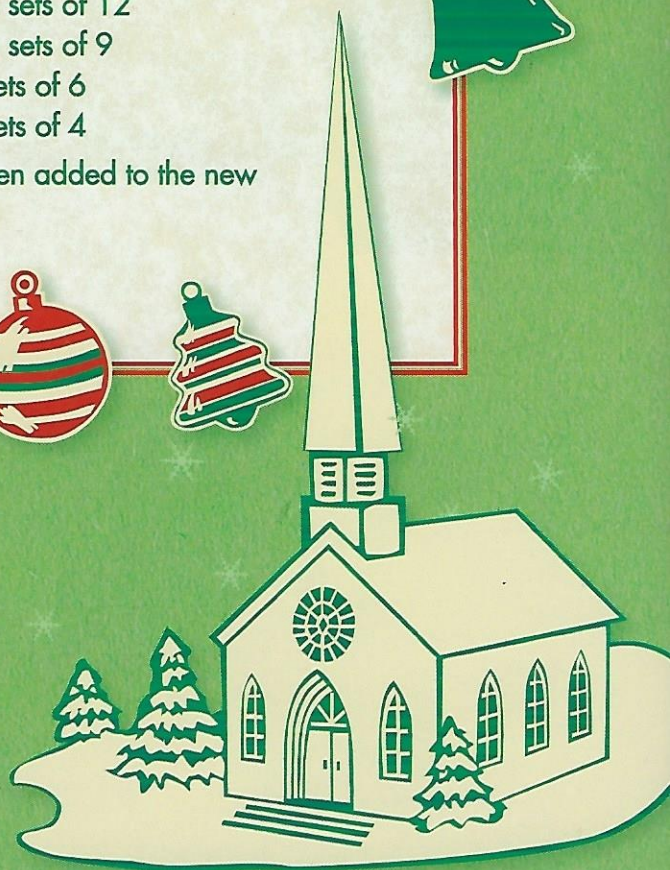

The Shiny-Brite® Collection remembers how America celebrated Christmas in the post war days of the 1940s through the disco days of the 1970s. As we turn back the clock and reminisce about Christmas Past, we pay tribute to the vintage decorations that celebrate Christmas - American style!

The Christopher Radko Company is proud to introduce nineteen new styles of SHINY-BRITE® boxed glass in its 2009 collection. Dynamic new shapes and color palettes that dazzle the eye are just a few of the highlights featured in the 2009 Shiny-Brite Collection.

Also new for 2009, four standard sizes and boxed sets:

MINI:	1¾" Balls and Forms in sets of 12
SMALL:	2½" Balls and Forms in sets of 9
MEDIUM:	3" Balls and Forms in sets of 6
LARGE:	4" Balls and Forms in sets of 4

Four new garlands, each 9' long have also been added to the new collection and are featured on page 96.
