German Candy Containers

Presented on these pages are German Candy Containers made exclusively for CHRISTOPHER RADKO®.

While each style has received exciting new paint details, clothing patterns and glitter embellishments, the styles retain and reflect all of the old-world traditional details inherent in authentic German candy containers made by The Schaller Family. The process of making decorative papier-mâché composition figures takes a full seven days per style. Once created, each papier-mâché container is dated, hand numbered, signed and limited in production to a maximum of 600 per style.

The CHRISTOPHER RADKO company is proud to continue working with the Schaller family to create these magnificent styles.

Christopher Radko Presents

SHINY BRITE™

Welcome to Shiny-Brite™
where the warm remembrances of the past
will inspire the memories of the future!

Unlike older European traditions, Shiny-Brite™ is about how America celebrated Christmas in the middle of the 20th Century. These faithful re-creations of vintage decorations are dedicated to those who kept the home front safe, and to their loved ones who created lasting family memories by keeping the home fires warm for years to come. So turn back the clock and celebrate Christmas – American style!

This year's assortment sees an increase in the number of collections and styles offered, with something for everyone. We continue to offer our popular mini, small, medium and large sets of boxed glass, new matching garlands and a number of new Shiny-Brite™ Tree Toppers.

All product in the 2010 collection follows the fill to order production schedule.
